# Thank You for Your Interest in Rapid Packaging -

The preferred resource for packaging materials and end-of-line automation designed to increase throughput and maximize profitability.

Rapid Packaging started as a poly bag supplier in 1976. Our guiding core values of courage, respect, integrity, speed and passion led us to be the organization people want to work for and do business with for past 40 years. Today, we are a leading distributor of packaging equipment and materials, and have built partnerships with some of the world's most premier manufactures and suppliers to deliver our customers the widest range of packaging solutions.

Long-term success can only come from having long-term commitments to our business and to the people who are making it happen. Each of our sales member's average nearly 20 years in the business making us the #1 industry leading solutions experts for our customers. We pride ourselves as being the supplier of choice when it comes to solving the most difficult packaging challenges. With our systems approach to end-of-line packaging, our customers receive the lowest cost of total ownership for all their packaging needs.

Rapid Packaging can provide comprehensive peace of mind to your entire packaging process by reducing costs, maximizing efficiency, and increasing throughput by offering a range of support and services including:

- Access to the most premier brands in packaging supplies and automation
- Expert sales support to reduce product waste and eliminate unnecessary cost
- Factory trained technicians to perform training, installation, and routine maintenance
- Faster processes and timely response for order delivery and reduced system downtimes
- Promotions and special product discounts passed directly to the customer

We appreciate the opportunity to earn your business and look forward to being a seamless part of your procurement process.

Sincerely,

**Rapid Packaging, Inc.**
